SUPPORTING EMPLOYMENT OF YOUNG PEOPLE

This project is funded by the European Union

This project is funded by the European Union

Component B- Trainings for Skills Demanded on the Labour Market

The objective of this component is to train young unemployed people for professional skills demanded on the labour market. The trainings will be carried out in a period of up to four months and will include theoretical and practical training.

Target groups are unemployed people who meet the following criteria:

- young unemployed persons up to age of 29;
- registered as active job-seekers within ESARM.

Expected result: 220 unemployed people have participated in trainings for work skills demanded in the labour market.

Component B -Trainings for Advanced IT Skills

The objective is to upgrade the IT skills of registered active young jobseekers with adequate educational background in order to increase their competitiveness on the labour market.

The trainings for IT programming will be implemented in a period of up to six months.

Target groups are unemployed people who meet the following criteria:

- adequate educational background, relevant on the type of course;
- young unemployed persons up to age of 29;
- registered as active job-seekers within ESARM.

Expected result: 220 unemployed people have participated in trainings for work skills demanded in the labour market.

Component A - Internship as Support to Employment of Young People up to the age of 29

The objective is to improve the employment perspectives of young people, while reflecting the current labour market needs.

Unemployed persons will be involved in the 3-month internship programme for the purpose of acquiring first working experience in the field of their education, specific professional knowledge and working skills

The target groups are unemployed people who are:

- up to the age of 29;
- with no prior registered relevant working experience according to their education;
- registered as active job-seekers within ESARM.

Expected result: Improved employment perspectives for 1000 young unemployed people.

This publication has been produced with the assistance of the European Union. The contents of this publication are the sole responsibility of Employment Service Agency and can in no way be taken to reflect the views of the European Union.

Component C- Training and counseling for entrepreneurship

The objective is to create new employment opportunities for the unemployed people through training and counselling for entrepreneurship and business management.

The participants will undergo training and counselling for up to 45 hours of training, that will include theoretical part (learning about entrepreneurship and business management) and counselling for developing business plan.

Target group are young people up to age of 29 registered as active job seekers, with minimum secondary education.

Expected result: 950 unemployed persons interested to start their own business trained for entrepreneurship and business management as well as for business plan.

Component D- Training in job search and preparedness skills

The objective is to prepare unemployed people for job and to enhance the skills for job searching in order to be integrated on the labour market. Different employment services and measures will be offered for the three categories of unemployed persons: Directly employable people, unemployed people with moderate difficulties and unemployed people with significant difficulties.

Target group:

- Unemployed young people up to age of 29.
- Unemployed young people registered as active job seekers within ESARM.

Expected result: 1400 unemployed persons included in Training in job search and
